The blender that combines power, speed, and silence

# PROFESSIONAL FEATURES

3HP brushless blender with aluminum body and acoustic cover that reduces noise even at 16,000 rpm.

Professional power and silence in a single machine.  
Designed for professionals. Built to last.

## ACOUSTIC COVER

It significantly reduces noise during the blending process, creating a quieter and more pleasant environment for both staff and customers. **Made from transparent and durable materials**, it provides full visibility while ensuring maximum comfort in kitchens and bars.

## JUG

Built for demanding kitchens, this BPA-free jug **combines durability and resistance with a generous capacity**, making it ideal for handling large batches while ensuring safe, long-lasting performance.

## RUBBER BASE

Featuring a **removable rubber base**, it ensures easy cleaning and a spotless, hygienic workspace every time.

## DIGITAL SCREEN

A vibrant color digital screen offers easy, intuitive operation, giving chefs instant access to settings and controls for a smoother, **more efficient workflow**.

## IDENTIFICATION BANDS AND GASKETS

Included are 2 additional gaskets and 2 identification bands in different colors, allowing each jar and lid to be instantly distinguished and managed flawlessly. **Designed for horeca kitchens where traceability, safety, and efficiency are key**.

## BLADES

6 carefully designed blades built for professional kitchens, delivering smooth textures, **powerful ice-crushing**, and **lasting durability**.

## METAL DRIVE COUPLING

The drive system is made of solid metal, ensuring **exceptional durability** and long-lasting performance even under intensive daily use.

## MOTOR POWER

The heart of the machine **Professional Brushless Motor 2200W**, gives a faster and silent performance, proven long life even with hardest work conditions.

## CONTROLS AND DISPLAY PANEL

Features an easy-to-read digital display that allows you to control all functions quickly and precisely.

## CUSTOMIZABLE FUNCTIONS 1 TO 6

Six programmable DIY functions allow step-by-step **customization**, making it easy to tackle any recipe, adapt textures, and achieve perfect results every time.

## REVERSE FUNCTION

The reverse function adds **extra versatility** by gently stirring ingredients in the opposite direction, **preventing blockages**, unsticking stubborn mixtures, and ensuring even blending.

## SELF-CLEANING FUNCTION

A dedicated self-cleaning program effortlessly washes the jars, ensuring thorough, **hygienic cleaning** while saving time and effort in the kitchen.

## VALUE AND PARAMETER ADJUSTMENT BUTTONS

**Intuitive** buttons make it simple to program customizable DIY functions, allowing anyone in a professional kitchen to operate the blender with ease.

## FIXED SPEEDS

A constant-speed mode maintains **steady blending** over long periods, while still allowing easy adjustments during use for precise control.

## PULSE FUNCTION

The pulse function delivers a power boost, giving the machine **extra strength** for short bursts to tackle the toughest ingredients.
